Dear Roslyn,

Thanks for your acknowledgement of my complaint. This is a long email, **I demand whistleblower protection now please.**

Here is a summary I have sent my NDIS co-ordinator, Hao - to send to you - in order to get traction. He denied doing it.

I wish to say that I have checked - my website is up and running. If not I have attached the text minus the evidence below.

I am well aware that Government agencies kick the can down the road, so to speak - to result in my further suffering.

Please read this to help explain:

Letter written today :

15.07.2021

My NDIS client Dr Rich Mclean suicided in Werribee mercy public hospital less than sixteen weeks ago-it was not his first attempt having complained of being suicidal and rejected by Dr John Whitaker of Millenium Medical centre, and given the fatal dose to overdose on. (That case was the centre of a conspiratorial cover up).

At Werribee mercy Hospital though - was found with no blood left and no observable pulse.

He lived beyond this attempt: to be met with a more insipid violent and furious chorus of malicious determined victimisation to silence him and it is criminal hence this email that needs to be acknowledged

The FOI from the hospital documented it as a fatal attempt.

They unethically confiscated & stole his suicide note (so personal to him), and said it was' illegible
-but the FOI-there is was highly legible : they had confiscated it to remove evidence ce.

He died because he was victimised, and stood for human rights after battling on his own for years and years

The hospital outright refuse to acknowledge his complaint in calls or emails of literally killing himself under their duty of care in their institution with an agreed illegal contraband which at the very least deserves conciliation if not litigation: yet he has been silenced...again.

The hospital deny all contact with Mr McLean to this day. This is criminal. This near certain tragedy occurred less than sixteen weeks ago.

He is a decades long artist and human rights campaigner- and he deserves support. Right now-he needs it immediately.

- He is unwell
- He is homeless
- He has no money
- Denied his private health insurance
- Denied his DSP from Centrelink despite being diagnosed with: (schizophrenia., bi-polar disorder, Adjustment disorder, ADHD, aspects of PD, generalised anxiety disorder, chronic depression, panic disorder and others).
- Denied work cover from ComCare re: his work being paid through the NDIA
- His internet is intercepted and he has only a few days of connection left before he is finally electronically ostracised
- There is a systemic cover up to maim him financially and silence the crimes of those with power and privilege (See below)
- Rich has been fighting for years-not once has he had an advocate or lawyer in all the injustice that has occurred
- He has been denied insurance on another occasion and rejected ted by the AHRC
- He cannot report to the police-he has a recording of him trying to report rape, tax evasion, fraud, a conspiracy to pervert the course of

justice, drug trafficking and he is aware that his former partner (who is protected by ASIO), was present at a murder, and this frames why he has been scapegoated.

Richard has this recording with the police made only weeks ago at Flemington police station. It is indisputable evidence that this is a sustained systemic conspiracy

Mr McLean made a complaint about his suicide at Werribee mercy hospital, with an agreed illegal contraband, which deserves at the extreme least a conciliation, or litigation, but the health complaints commissioner rejected him outright

The mental health complaints commissioner took over his complaint and he desperately searched for a way to be simply heard: but they outright refused to send him his outcome and response from mercy hospital, unless it went past a body of lawyers first in biased towards the hospital- this is inequitable unjust and takes advantage of Rich's situation of being homeless and with no money

They requested it go before their lawyers, who he found out were double agents and biased in favour of the hospital - denying him a voice and illegally robbing him of justice.

Richard has proof and wants to draw it to the attention of federal authorities

Try as he did- this was unsuccessful

This is an outrageous and illegal injustice- to deny a suicide survivor, an extremely vulnerable individual - the opportunity for a voice or justice in any form via coercion conspiracy to pervert the course of justice.

Now the genie is out of the bottle.

The odds are stacked against Mr McLean who has lost his job as an NDIS therapeutic support worker- via being victimised and involuntarily incarcerated, lost all avenues of litigation and justice, lost his reputation, his home, outrageously denied a DSP, refused any litigation, and zero acknowledgment from police or authorities - and any authority that does

acknowledgment from police or authorities - and any authority that does intervene - either 'takes time' (ie kicking the can down the road), or asks specific information so nuanced that it takes time - a thing Rich downs not have. (I am speaking to you Ombudsman).

I need whistleblower protection as of TODAY

He reports of being hungry cold and squatting bereft of hope isolated and struggling to feed himself.

He is a nationally celebrated human rights awarded advocate who has for two decades-campaigned for a better life for marginalised people.

He has spoken publicly from Australian parliament all the tv and radio channels, from Warnambool, keynote speeches to thousands of people, to outback Dubbo and overseas at McGill University in Canada.

His family say they cannot support him anymore.

In addition to the suicide whilst under duty of care at the hospital : he contracted a strain of golden staph during his hospital stay. He was released unceremoniously from the hospital with no job no food no car and a simple phone number to call for support- this is not support, it is malicious abuse and leaving him on his own to fend for himself.

At least he was happy to be reunited with his beloved dog, Crystal, who had been on her own - unethically in Mr McLeans rental property for nearly four days-the same amount of time the deliberate denial of his medication by hospital psychiatrists he was on for over eight years-was refused to him in hospital, leading to the immense distress that saw him vigorously attempt suicide.

The movement he claims to maim him in all ways solidified when his long standing psychiatrist dumped him upon admission - that robbed him of his ADHD medication that the same psychiatrist raved about in the vast improvement in Rich's life.

Rich has all this evidence he needs bought to light.

That miracle drug saw Mr Mclean complete a masters in Education, a PhD

working with young people, and work both as an academic support worker, an art teacher for vulnerable people, and conceptualised constructed and ran independently his own business with zero training- for two years as a registered therapist for the NDIS, helping marginalised people, such is his honourable intentions of giving back to society.

He was released just over three months ago into the community under the "care" of salt water clinic in Footscray -who is auspiced under Werribee Mercy who further rejected his medication. Rich believes they were prejudiced towards him because he threatened to sue the Hospital the clinic was auspiced by.

It took over three whole months for Rich to consult a psychiatrist in person face to face which is clearly indicative of more than merely a terrible public mental health system: Rich believes it was a malicious and biased reaction because he stood up for himself re: the hospital, and that they waited and watched him become further distressed denying him medication that he already had a script for yet had ran out.

This is clear medical malpractice - they watched him come undone, as if baying for his blood.

The reason given was that it was "against policy" to provide this script, despite Rich's recordings that prove if you come in to the service with an ADHD diagnosis-the script is continued.

Additionally when Rich told upon admission to hospital this "conspiracy " he was deemed psychotic and delusional. After his suicide attempt and when they discharged him after over two weeks, the exit notes by a seasoned psychiatrist report he is in no way "psychotic" NOR "delusional" and this confirmed what Rich already knew about this movement to victimise and maim him was true and correct.

They made Mr McLean- a human rights awarded advocate and public figure - wait for over three months and two days to even see a psychiatrist in the flesh which is an inconceivable injustice reflecting the prejudice and victimisation Rich claims is systemic and has seen him blacklisted from many agencies including across governmental departments

This movement is a malicious attempt to kick the can down the road that

he may suicide by his own hand before an outcome of justice and compensation: it needs to be investigated immediately

For this human rights awarded public person is seen as a nuisance - simply because he made a complaint - and Rich knows he is seen as less of a burden dead of his own hand - so the powers that be can blame his illness than for his rightful acknowledgment in all areas of his discrimination and heinous victimisation - than for him to gain justice for all the ills projected onto him.

Rich has all the evidence to prove this.

It is unfair inequitable unreasonable and utterly jaded for Mr McLean whom has spent the better half of his life advocating for others, nationally and internationally for a better life regarding mental illness, to be subjected to this systemic form of abuse and collective assault

He has had zero representation in litigation and zero support in any unbiased way with the many many people he has in vain attempted traction with

He has been marred and scapegoated by a systemic malicious cover up by agencies Individuals organisations and has solid indisputable evidence collected by himself over years of a nation wide systemic cover up to exclude him from justice and maim him financially politically and in all conceivable ways.

Now that he is close-he has evidence of his computer being hacked by federal agencies

He has tried to report this to police in person after his hospitalisation and with desperation after he tried to kill himself again -he recorded the interview- and they denied him any traction whatsoever.

If a citizen of a democratic country cannot report whistleblower crime to the police it is utterly proven the conspiracy exists and he is in dire need of whistleblower protection

This whole "conspiracy " is further to his valid complaint 2018 about a GP for medical malpractice and professional incompetence which was

silenced by :

- AHPRA
- NHPOPC
- The police,
- IBAC,
- The Australian human rights commission,
- The Victorian inspectorate,
- Mental health complaints commissioner,
- VCAT, and senior politicians including
- MP Greg Hunt
- MP Katie Hall and
- Sane Australia CEO Jack Heath and many many others.

It's simple - if the GP did nothing wrong he would welcome Rich's evidence and story to exonerate himself of all wrongdoing: yet this did not happen: a concerted cover up happened that was unbalanced, uneven, inequitable, and used brutal legal forces that Rich was simply ill equipped to deal with. This concerted conspiracy led Rich to beg for help publicly - the GP (who had no AHPRA registration nor ABN at the time), was fired, and Rich was banned from not one, but two medical practices. This is pure victimisation.

My complaint today though is relating to this original criminality re: his recent suicide in Werribee mercy hospital with an agreed banned contraband, his inability to lodge a complaint, the rejection from a biased mental health complaints commissioner- Rich's hard evidence that explicated this in an undeniable way- and the endemic cover up that followed. This includes him not even having agency to report to police-in itself a crime.

Rich has a diagnosis of schizophrenia bi polar chronic anxiety major depressive disorder ADHD, some clusters of PD and adjustment disorder amongst other labels - some of which he does not agree with. Remarkably yet unsurprising to Rich is his rejection from a disability pension, something he was grateful for from 2003-2019.

I demand unequivocally an unbiased and thorough review of Rich's entire evidence and his attempted suicide at Werribee Mercy public Hospital

whilst incarcerated on an unjust intervention order: and the cover up that followed adding to the unthinkable malaise aimed at bringing harm to him.

In addition the events leading up to this must be investigated thoroughly as well.

This includes his 3.5 year childhood sexual abuse battle with VOCAT in which a disgraced magistrate told him he was "doomed to fail", that sent Rich into a tailspin with his work where he was triggered by clients who had sexual abuse experiences.

I would like the investigation to include previous events and after his second suicide attempt- including the years long victimisation of him which he alone is and was impossible to oppose.

Prior to his hospitalisation he tried in vain to report all this crime to police - and has recordings of that too- never being acknowledged.

Then upon entering the hospital he told this story of conspiracy - that had burdened Rich and his life of giving to others - they robbed him of the essential medication that benefited him for over eight years and the hospital planned to dose him up with mind numbing anti psychotics.

This is criminal

Rich believes a conspiracy is explicitly apparent to deny him of justice prosperity and aid and abet in any form a process that will "kick the can down the road" with the goal being for him to suicide-ridding the establishment of someone with irrefutable evidence rejections PDF's sound recordings and thousands of emails - of an undeniable cover up - who is seen as a "nuisance" in the eyes of the Government and they bade his death, in the favour of money power and privilege - rather than him get justice.

[Rich's evidence is irrefutable and he needs whistleblower protection immediately](#)

Despite Mr McLeans outstanding and passionate dedication to furthering human knowledge gaining a PhD and working for decades assisting

those with less fortune and marginalised:

This movement has resulted in his homelessness as present and: he desperately needs our help and whistleblower protection as a member of a democratic society.

- In advocacy
- In litigation
- To be heard
- To be shown value
- To be acknowledged as a person who has given so much, then crucified for it
- To be protected from harm and violence
- To be afforded his basic needs met
- To be granted whistleblower rights and protection
- A place to stay, food and water, internet access free from being monitored

He has lost a job he loves via being incarcerated helping others that he loved because of this

He was denied his income protection Insurance claim because of this

He was denied work cover (Comcare) as part of the cover up denying him just compensation

He can't afford rent and is homeless

He lost his close allies and friends and has been:

Publicly humiliated gaslighted and rejected

His family no longer support him - how is Rich able to explain the depths of this crisis

He finds it hard to explain years of systemic assault-and is labelled "paranoid" despite his evidence and the hospital report confirming this 'conspiracy' is in fact - real

He lost his reputation and agency for fair litigation and anyone to help him

He suffered at the hands of his former criminal partner who worked for ASIO and is protected by them - he suffered coercive control and spent his nest egg from a payout on the relation ship - whilst his oppressor earned 350K a year- then was denied family litigation for rightful separation of assets

He claims to have been set up and has evidence in the form of letters rejections and phone recordings from dozens of organisations and people and agencies

He has lost friends for desperately trying to convince them this is happening to nil effect

He has been rejected his own child sexual abuse validation by a corrupt magistrate who was complicit in this outrage-indeed his lawyer did not even give him an official outcome and the magistrate - after three and a half years - wrote to Rich after he begged for a rtesponse and she wrote he quote 'was doomed to fail from the start.'

He has been set up and his emails interfered with and intercepted and deleted off his computer - he has days worth of internet left - after that he will be officially unconnected to any form of justice or protection

He has not a psychologist nor psychiatrist despite all his contacts because he had been blacklisted and everyone refuses to see him

Every lawyer he has contacted has rejected him - no matter if they were no win no fee-Rich feels the powers that be go over their heads

He believes if no one helps or acknowledges this systemic vile malicious movement and his silencing and utter rejection: the movement will ultimately seek to kill him via keeping the time clock ticking and place his at intolerable vulnerable risk.

As a twice suicide survivor he is direly at risk from the "violence of neglect" should he become a vagrant at risk of dying

He has the evidence of everything in this letter.

The genie is out of the bottle:

He has published it as a whistleblower statement on his website - he deserves protection for what he knows as a democratic and free citizen of this country

It is viewable at www.richmclean.com.au

I require an acknowledgment of this email urgently and Rich deserves an ombudsman response urgently

Rich has amassed years of evidence in responses emails and recordings that render the in-fathomable shape of this almost unbelievable injustice

It is on his website in plain sight for you to download as a PDF and acknowledge - contrary to what authorities say the website has been checked and is viewable right now

Regrettably and predictably-the powers that be have ignored his complaint!

Coping with life is hard, harder when you have an illness, harder again when you can prove, like Rich has-the insane wall of bureaucracy intelligently designed to oppress and kill him - it is beyond immoral - it is pure evil and beyond criminal

If he does die now-like before he will have died defending what was just and right, and if no action is taken by you today reading this:

you will be utterly complicit in witnessing and allowing it to happen and blood will be on your hands

If no action is taken today by you via alerting the ombudsman and the police - you will suffer in the regret of his potential absence and be complicit in his murder - I can't be more blunt.

-

Do not be on the wrong side of justice

Do not ignore this email

Do not say his website does not work when it absolutely does

I request this letter be attended to without delay ASAP and I today I support as Rich does secular ethics human rights and oppose the injustice that has Mr McLean living not once but thrice in his "post death" guilty existence still shouting to the silence

Don't be that invalidating response.

Acknowledge this issue now and urgently.

That was written by me in my NDIS workers'voice' but goes to explain what has happened.THE WEBSITE IS VISIBLE

If not, I have been confused by this fight and offer to you the words from the website here in this word document.

(Wait - my computer is hijacked - I will have to paste it here - apologies for the long read)

Dr. Rich McLean is a Whistleblower,
He deserves to be validated by the Federal
Police and the National Ombudsman and to
be afforded protection as a citizen of
Australia. As of 01/06/2021 I have been
rejected, rendering me a voiceless victim as a
free' citizen within my own democracy.

BAC & Police & Ombudsman - I will know if you have assessed my issue(s) if you download the PDF containing the evidence at the bottom of this page.

Whistle-blower's statement and my PID: By Dr. Rich Mclean, 28/05/2021.

To be continually Updated...)

I wish to say I am not suicidal.

So-don't call the CAT team.

Print this off and take it to your local police station and ask why it is I could not report all this to them or make a statement?

Need to know recordings: & summary

A recording that was taken not maliciously - but because I thought I was going insane - Dr. Whitaker formerly of Millenium Medical Clinic-that exposes medical malpractice and professional misconduct and neglect.

I was doing a PhD facing my own childhood sexual abuse I wrote about for my doctorate and spoke of at the state library, and published by The Good Men Project in 2017.

I was under the stress of a Ph.D. and utterly gutted and grief-stricken and bereaved by loss as my dear friend and confidant Nathan Turnley, who had taken his life.

I have lost too many people, and I have died not once but twice under a duty of care.

I fight for myself and the memory of my dear friends.

I explain a technique to kill myself, a plan and a method to the Dr, I am clearly distressed. He told me 'You're too clever you'll fall between the cracks,'...and that when I begged for a psychologist or psychiatrist, he said 'I don't know anyone.'

As if that were not bad enough, I had seen him for six years, and my FOI states frequent suicidality; in the same session, he gave me a fatal dose of opioids I requested, which I then a few weeks later used to attempt suicide.

Trigger alert: Here is my suicide note as I lay dying that afternoon on 24th Sept 2018..

I ended up complaining to the Health Complaints Commissioner after I survived the suicide and was addened when I found the angry note I wrote as I lay dying, that I overdosed on medication (opiates) he gave me in the exact same session.

I tried to defend him begging for an apology or conciliation - evidence shows I did not want to harm him - yet my pleas were ignored.

I finally sent the complaint to AHPRA. They made me suffer for a whole year - then covered it up. EVIDENCE

So did NHPOPC the people that investigate AHPRA, EVIDENCE

So I went to the Police - they covered it up, EVIDENCE

So I went to who investigated the police IBAC. They covered it up as well. EVIDENCE

The Mental Health Complaints Commission said I would have a case, 'If you were dead but you're not!' No lawyer would touch it. THEY REJECTED IT

Also implicated are people and other organizations I desperately reached out to.

The CEO of SANE Australia Mr. Jack Heath told me to leave it. EVIDENCE

The Victorian Ombudsman rejected it. EVIDENCE

The Mental health Complaints Commissioner rejected it. EVIDENCE

Someone called from 'The Police at Maribyrnong criminal investigations unit', and told me to forget it. SOUND RECORDING

I tried to call the Footscray police station again and again. EVIDENCE

I emailed Chris Roberts the constable who rejected my emails and calls - and I told him in an email he makes me 'feel less than death.' by not answering. EVIDENCE

I was furious about it to NHPOPC who were investigating AHPRA and they too waited and witnessed me - a suicide survivor - in so much distress for over a year before their determination - also rejected it. EVIDENCE

The independent Broad-based Anti Corruption Commission also saw 'nothing to see here.' and everyone of them knew about this recording because I had shared it online with every news agency and media channel in the country. THEY REJECTED IT

It was common that an institution or person would handball it to the next person or place saying 'it is outside of our scope' and utilizing complex legal speak and references to legislation I did not understand.

During that time the battle wore my soul thin and I became suicidal. NHPOPC knew this but waited weeks before emailing me back telling me to see a GP and LifeLines number. EVIDENCE. They told me there can be no FOI from there. EVIDENCE.

I learned 'the waiting game is a methodology many institutions and organizations employ, to 'kick the can down the road', observing as I grew more distressed coupled with multiple pains.

Waiting for me to die, and occasionally emboldening the opportunity for that by deception, aslighting, or giving me dangerous medication, or taking what medication worked away.

People of public office implicated in the cover up included but not limited to:

copy of public office implicated in the cover-up included but not limited to.

The National Health Minister Greg Hunt, EVIDENCE

Labor MP Katie Hall who ironically told me to see a GP, EVIDENCE

Professor Gordon Parker, of the Blackdog institute, told me to 'see my GP' too, EVIDENCE

I spoke with beyond blue, it was pointless, EVIDENCE

I messaged greens senator Justin Steele but he was not interested although i thought he may resonate.

The suicide note mentions my childhood sexual abuse - that I became conscious of in psychology with Dr. MacKinnon. It was another cover-up that came later - and the suicide note is indicative of the shame and the effect the abuse had - especially not being believed - and that the doctors just wanted a quick buck, that my psychologist refused to see me because I was broke.

I would have died a bitter angry man that day. But alas and glad I didn't.

HERE IS THE COVERED-UP RECORDING FROM THAT FATEFUL DAY WITH DR WHITAKER. VERY SIMPLY IF HE DID NOTHING WRONG HE WOULD HAVE WELCOMED THE RECORDING TO EXONERATE HIMSELF.

I Got an FOI from AHPRA - I found out his lawyer Mr. Ball of Ball and Associates threatened to sue AHPRA if the recording - or my transcription of it which was allowed and suggested by AHPRA - was used. So-It wasn't.

EVIDENCE

Neither was the transcription - so my over-year-long battle was neutered and pointless - yet AHPRA still decided no punishment for the GP, not even mild mental health training.

It was so one-sided unequitable unbalanced uneven and unfair and favored him with money power and privilege-he had lawyers, AHPRA had lawyers - NHPOPC had a panel of lawyers - The Police had investigators who sided with him - so did IBAC-everyone had lawyers, I was used to advocating on my own, and I did it simultaneously studying a Ph.D. framed by the Anthropocene and 'The end of humanity', framed by 'Global Catastrophic Risks.', which was stressful enough.

MY PHD

I battled alone not wanting to distress anyone. In time though, the onion layers of who was covering it up became wider and wider, and I published the recording hoping for traction - yet it exposed the crime - they could not sue me - I had no money - they could not put me in jail for trying to kill myself either.

I have learned that the Victorian Legislation for surveillance devices has a clause and exemption (1999) which means if it is to do with your life or liberty or litigation for legal purposes; it is permissible to be heard by a court and not a crime to record.

The GP lost his job,

I am banned from the clinic,

I was not even registered as a practitioner or for GST at the time,

I was banned from contacting Millenium medical Centre or going in there,

The place that ran it said never to email them again.

My FOI from there was redacted and took months.

Even the next doctor, Dr. Cooper, banned me from the clinic, he practiced at after stupidly prescribing me with 2 x boxes of high dose 'grade 1' Endone' at a time; then accusing me of needing D & A services to continue as a patient., essentially managing me out.

EVIDENCE

I think 'the conspiracy', was hoping I would kill myself before I got justice. I didn't - then abruptly he second GP-Dr Cooper from Yarraville Family Medical Center, stopped the valium I had taken for ten years immediately, and forced me into instant withdrawal from Endone for my injured back - broke confidentiality with my psychiatrist, and banned me from the clinic via. a letter unless I went to drug and alcohol rehab and demanded I apologize to the staff.

That's not caring, that's a malicious way to treat a person who had grief issues and fresh from the shame I carried for a lifetime around sexual abuse - and many complexities. Ask me for the evidence.

I have my FOI from Millenium Medical Centre - but it was censored and heavily redacted-, it says I was suicidal for some time, so did my then psychiatrist - and also my psychologist - I (my psychologist 'let me go' after I was savagely assaulted in an affray in Footscray and VOCAT blamed me as 'The principal Agressor', which was utterly incorrect).

The Dancing Dog Cafe had video footage of the incident, but it was rejected from my Police FOI that would have exonerated me from blame and my pathetic result from victims of Crime and The police.

It is not a crime to be sad...

But medical malpractice and professional negligence are - and that's what started the cover-up, that was amplified by my identity being known in the public space as someone who had a 'mental illness, and had, after being fired from being a news graphics artist and Illustrator from 'The Age', in discrimination - was a profound public speaker on mental health advocacy and holistic health for many years.

I tried in vain to report all this a few weeks ago at Flemington Police station, Melbourne, but they would not interview me.

This is the document I wanted to be read out by me and recorded/witnessed by a constable and his superior:

LINK TO THE DOCUMENT I SAID I WOULD READ ALOUD AND RECORD

Let this is what happened when they found out who I was! [LINK TO THE AUDIO OF THE CONSTABLE REJECTING ME](#)

I could not complain - I could not go to the police - I could not go to the Victorian Inspectorate, The Human Rights Commission, The Victorian Ombudsman, anywhere...

I fought a million battles since then - and victimized just because I stuck up for myself.

I am blacklisted from AHPRA the police won't listen to me, (insert FORMER PARTNER Steve Asonidis here-who was a worker at ASIO and I have knowledge of his crimes below), and my files have disappeared off my computer, I have been hacked, maimed, targeted, victimized, rejected, ostracised and forgotten.

I did not know it yet but my self-advocacy was going to get me framed.

Then after all these years - with me telling the police to investigate - I received my Ph.D. but I was framed for being 'paranoid and insane' - the 'conspiracy' locked me up because I happen to threaten suicide months and months in advance.; I was incarcerated at Werribee psychiatric Hospital,

Even though I RECORDED THE CAT TEAM AND POLICE NAT MY HOUSE EXPLAINING I AM NOT SUICIDAL. THEY DID NOT EVEN ALLOW ME TIME TO COLLECT SOME ESSENTIALS OR ORGANISE FOR MY BEAUTIFUL DOG TO BE CARED FOR; WAS QUIETLY INSIDE HAVING A CIDER!

I was incarcerated and they rejected all my medication and stripped me of my phone did not explain my rights, they took my shoelaces and my robbed me of agency & dignity - they had won. The conspiracy had gaslighted me enough - that they had locked me in the loony bin. I was sad - not mad.

The complexity of how I fought alone with many many people and organizations all alone - well I was going to die a human rights campaigner if I was going to be locked up forever - I bled out on the lower floor for 45 mins after slitting my artery with a banned contraband (glass that was agreed was illegal), - they found me with no blood on the shower floor with the shower running - the FOI from The hospital states it was 'a fatal attempt' and that 'I had 'no observable pulse' when found - till I was interviewed by a panel of psychiatrists and legal people not 24 hours after my attempt.

Still, they fight me.

I made a complaint to the hospital HERE TO THE MENTAL HEALTH COMPLAINTS COMMISSIONER yet - they rejected sending the response to me, (before they got a bank of lawyers to look over it), so- where is MY lawyer? the MHCC are supposed to be impartial.

HERE THEY ARE REJECTING SENDING THE RESPONSE TO ME BY A LAWYER WHO HAD SUDDENLY STEPPED IN.

In the sustained malicious attack one - I wanted to do something - but it was so big - so I got high and made a verbal statement to two friends - yes I was high (because when I was released from the hospital I was squatting, had no food, no car, and no job anymore, and on JobSeeker as my DSP which I was on for years before the amazing DEXAMPHETAMINE TREATMENT MY PSYCHIATRIST RAVED ABOUT IN REGARDS TO ME was rejected. I felt the rush of hedonism and freedom - but my psychiatrist accused me ridiculously of fraud and knowing I needed the dex desperately to have a good life - abandoned me.

I was beaten again - I was so confused at the breadth of what I was facing and I asked two friends to witness me speaking - just so I could sum it all up in one go and get it off my chest.

This is that statement that sums it up as of a couple of weeks ago),

Introduction

I am the unwitting center of an elaborate systemic and thorough conspiracy across all levels of government, institutions, legal forms, public organizations, and advocacy groups, and thousands of pawns by individuals in the veneer of many corrupt institutions - essentially protecting those with money power and privilege and utilizing prejudice discrimination

corrupt institutions – essentially protecting those with money power and privilege and utilizing prejudice discrimination and my lack of resources to frame me and exploit my vulnerabilities.

The 'conspiracy' is utilising discrimination public shaming, setting me up, and explicitly kicking the can down the road and delay tactics until I am left with nothing: bereft of prosperity and happiness and next to suicidal.

I have an utter lack of litigation support despite my supreme efforts to garner some and fight it all and these people who are many that I cannot fight any longer – are relying on the fact I am now homeless, being in debt, and suffer mental illness due to stress and utterly powerless-which has led to this statement today – simply there is absolutely nothing left to lose, and I have already 'died' twice.

Now in my sentence, and my post-death and post-death life; I have a reason to live.

Justice and acknowledgment, to have enough to simply live that I may live in peace and continue to help people.

My situation as of 28/05/2021:

- I am squatting – (Thanks to my brother for covering last two months rent),
- I have no home, no one to cry to,
- time is running out.
- I have already suicided twice and survived, once under GP Dr Whitaker formerly of Millennium medical centre, and once at Werribee Mercy public hospital after my incarceration,
- Both have been covered up.
- I have no agency to act with litigation,
- and have struggled my whole life.

- I have been:
- Publicly shamed,
- Gaslighted,
- Unacknowledged,
- Rejected,
- Conspired against,
- Discriminated against,
- Used,
- Raped,
- Had my issues silenced and covered up,
- Refused litigation,
- Lost my reputation,
- Lost family and been rejected by most of them,
- I have lost my job.
- I am in debt and homeless if not for my brother,
- Lost money and income,
- Lost insurance and income assist and denied Workcover,
- Denied a DSP,
- Forced to bankruptcy,
- Threatened personally and professionally by institutions, publicly and anonymously by known and unknown people,
- Exonerated from my job via incarceration and being insolvent,
- Shamed victimised and taken advantage of.

- My reputation desecrated and the media framed me and ruined my reputation,
- Been fired illegally and discriminated against, and it was covered up,
- Refused to be acknowledged by legal services,
- Refused by inpatient units, (When i did need it),
- Refused to be able to make a statement to the police,
- Subject to corruption at VCAT and refused my superannuation entitlements despite the evidence,
- Professionally and publicly blacklisted,

All I have to act is sentence intelligence powerful knowledge and endless evidence

Otherwise, I own a computer a bed consciousness, and my beautiful dog.

The time is now.

This has been my life, and I have given so much in altruism with no reward but further marginalization.

have been systemically and maliciously and intently ruined in social political legal and social and human rights ways – and blacklisted – just for sticking up for myself – and this is victimisation.

- I wish to state I am not presently suicidal.
- I do not plan to kill myself.
- This is to avoid incarceration= which I know is planned as a methodology to silence this statement.

the methodologies of how this has been allowed to occur for the main issues of the cover-up and the conspiracy to maim destroy and ruin me in every way stem from and have their genesis in:

- I wrote a tell-all book on my experience of 'my struggles' and subject to public humiliation rejection stigma and persecution.
- I became involved in a five-year relationship which was a poisonous transaction with a narcissistic criminal who utilised coercive control to destroy me and threatens me to this day who worked for ASIO and is given protection for his tax fraud and i have knowledge he was present at more than one murder,
- I survived a suicide attempt through all the distress and the death of a dear friend – the person I was under the 'care' of was Dr. John Whitaker formerly of Millennium medical center. The whole thing started a sequence of events that is literally unbelievable, a sustained and malicious way of deleting evidence i had and covering up the recording to protect the doctor,
- So – in effect, I was framed and victimized, silenced, rejected, gaslighted, and blacklisted.
- Further, I was victimised by police and maimed because no one understood my private hell in which I was systemically and consistently marginalised for a period of over five years, ten if you count the stress of the poisonous relationship in which I was engaged to him.
- Further to gain traction for this injustice, which was impossible to comprehend, and I was victim-blamed via prejudice for 'being paranoid' and 'not acting in my best interests for my mental health', I threatened to kill myself

months in advance.

- Instead of anyone acknowledging my concerns which is shameful, concerned people and my family institutionalized me. The police loved it, as I had been familiar with them, and they loved the idea of locking me up. I was treated without human dignity – and I thought the conspiracy had won – I was disturbed by my lack of medication they rejected me and stripped me of all identity.
- I was going to die a human rights campaigner and the coroner's report would see I had been screaming for help for years – and my 'conspiratorial' and 'paranoid' ideas were utterly correct. So I killed myself. The FOI says It was 'fatal' and that I had no observable pulse after I bled out after cutting my artery open and bleeding out for about 45 minutes.
- I lodged a complaint, (so many), and again it was maliciously and systemically and prolonged gaslighting rejection and covered up; with full knowledge that I was becoming incredibly distressed.

I can't fight forever nor alone.

So - What are the main drivers and methodologies of the 'conspiracy' exploits in me? And why?

- The reason is to protect those in power with more legal privilege than myself who has none.
- The conspiracy angles prejudice discrimination private and public shaming ostracization rejection neglecting and ignoring me and gaslighting tactics to kick the can down the road until I am maliciously maimed and have no leg to stand on or a penny in my pocket.
- They rely on the fact I can get no legal help and am blacklisted from many organizations.
- ASIO knows who I am and what I know because my computer has been hacked and my communications intercepted.

The crimes I am reporting: (Or attempted to!)

1. Conspiracy to pervert the course of justice,
2. Tax evasion,
3. A cover-up by ASIO,
4. Disability discrimination,
5. Blacklisting my name with no legal precedent,
6. A movement to deny me justice and maim me in all ways – even to kill me then cover it up,

7. Medical malpractice by Dr. Whitaker and many at Werribee mercy hospital,
8. Professional negligence,
9. Rape,
0. More malpractice giving 2 x boxes of a-grade endone to a clearly suicidal patient
1. Doctor confidentiality broken
2. Being abandoned in duty of care by psychiatrists
3. Threatened to be fraudulent by an associate professor of psychiatry ending up in my ostracization knowing full well this would maim me,,
4. A relationship based on coercive control who discriminated against me in physical emotional and used me financially and set me up and also threatened hit men when I attempted legal and just separation of assets,
5. A cover-up from Monash Law,
6. Car theft and theft of other goods,
7. Intimidation including threats of death and standover tactics,
8. Being set up and kicking the can down the road – with matter-of-fact evidence I am again clearly suicidal, and in this way, they hoped I would kill myself and supplied the means,
9. Childhood sexual abuse,
0. A magistrate who was prejudiced,
1. lawyers that acted without mercy and refused to provide a legal outcome even though it had been heard by the magistrate,
2. I have information on drug trafficking,
3. I have information on my former partner investing 1.2 million dollars in an offshore tax haven then avoiding jail because of his secret links to ASIO and protection,
4. Centrelink deception and refusal for a DSP,
5. Domestic violence,
6. PID cover-up,,
7. IBAC cover-up,
8. Victorian Inspectorate cover-up,

9. IMHA cover-up,
0. Being neglected rejected and gaslighted responses from many because of my poor memory that my 'carers' aware of,
1. Standover tactics to reject medication I need,
2. Abandonment of duty of care by a public hospital,
3. A systemic cover-up I can prove,
4. Evidence being illegally withdrawn from an office of public authority including the Australian medical review Board,
5. Me being discriminated against by IPC and two medical practices – banned,
6. Corrupt police who have heard me speak of these crimes and were completely complicit in its cover-up,
7. IBAC corruption,
8. AHPRA corruption,
9. Australian medical review Board is cooked,
0. Australian medical review Board utterly anonymous and corrupt,
1. I have been systemically and unbelievably denied litigation by every no win no fee agency,
2. Cover up by Monash Community Law,
3. NHPOPC corrupt and cover-up,
4. Victorian Ombudsman corruption,
5. The police will not acknowledge me – corruption,
6. I reported the first instance of medical malpractice to the Royal Commission and not a thing was said or reacted to, and I made it public,
7. I cannot access WorkCover, and denied my claim,
8. HCF has a bank of lawyers covering up my claim and I don't have litigation - and have ruthlessly watched as the stress of not being paid valid income protection from an illness that did not exist before and becoming bereft of finance led me to hospitalization,
9. Comsure through the NDIA where I earned my wage for two years have rejected my worker's compensation claim knowing full well I am homeless and deserving,
0. The MHCC is supposed to be an impartial complaints resolution but has acted with a stand-in lawyer who has

rejected sending me the response of my complaint to Werribee hospital, proving she is complicit in the cover-up in a way that is unequal, inequitable, and takes advantage of my stress distress and situation.,

1. The office of the chief psychiatrist covering it all p telling me: 'you can't kill yourself every time you don't get what you want!' – evidence.,
2. The national ombudsman rejected my Whistleblowing statement and in addition to my PID – (Public Interest Disclosure),

this is a democratic right in Australia for a free citizen that has whistleblowing protections by law including freedom from litigation and being sued, and freedom to press charges and have the whole cover-up investigated and all my evidence acknowledged.

In addition, freedom from discrimination, bullying, standover tactics, public humiliation, and access to basic care for my living needs to be met framed by all of this including an unbiased lawyer across federal law and discrimination law.

Without a public nor federal acknowledgment from the police nor authorities - – they are trying to kill me.

They will stop at nothing.

have nothing, but I would rather have died and be remembered for exposing the truth on my website as a human rights campaigner and the many crimes exposed, and if I had have died in my incarceration - the coroners' report would have agreed that I am the victim of a conspiracy.

Even the hospital discharge notes expressed by a psychiatrist identify I am NOT paranoid and I am NOT delusional.

- I am proud of who I am and my achievements and,
- I am not mad or paranoid.

When I was discharged after my incarceration and suicide in Werribee mercy the treating psychiatrist noted I was:

- neither psychotic
- nor delusional –
- but had been adversely reactive to all the stress that is based in fact resulting in a 'main diagnosis' of 'adjustment disorder'. This stemmed from years of abuse neglect and prejudice/injustice.

This is a new diagnosis. It has not existed before.

After leaving work for the NDIS (paid. by the NDIA) - was a reaction to my stress of dealing with a client who suffered child sexual abuse and child rapes I cannot name out of respect - and legal - but I was triggered and www.yourlawyer.com.au did not give me an outcome I fought for 3.5 years and the magistrate when I begged her for a response told me 'I was doomed to fail from the start.' - That's colorful language to a sexual abuse survivor.

In the three months since I have left the hospital with no money, no food, squatting, and incredibly vulnerable and under investigation – I did not see a psychiatrist for three months and two days in person at Saltwater Clinic – an extension

nder Mercy Hospital.

Saltwater Clinic again rejected my legal need for dexamphetamine to treat my ADHD and drug-resistant depression
ADHD without a valid reason, except to say; 'it is policy', not to prescribe it despite an associate professor Dr. David
Lorgan acknowledging that I had ADHD and need to have dex for my well being.

They victim-blamed me stating I was paranoid, refused to let go of threatening me with incarceration in the psychiatric
unit.

This is more than just 'a bad public mental health system', it was a malicious attempt to maim me and reject any support
in my desperate need for assistance - that I so desperately was screaming for as I had done my whole life and explicitly
in the last eight or so months.

including up until today.

Dr Rich Mclean

18/05/2021.

As per whistleblowing statements and complaints to the commonwealth ombudsman, I will expect a response within ten
days.

UPDATE:

BAC has rejected me and so did the commonwealth ombudsman - that is why this is now public.

I will be posting my evidence in weeks to come.

That also includes recordings I have made on the telephone.

According to the Victorian surveillance devices act - there is an exemption to re-record anyone if it has to do with your
survival or legal rights and will be acknowledged in court. I don't think I am doing anything wrong nor illegal by
publishing this.

A conspiracy to pervert the course of justice.

I will name and shame those complicit here in the coming days, their roles, and their positions, and what they did, to
assist in the cover up:

:tc

Devoid of power or agency to act, speak up with any outcomes of justice - and I will either:

1. Die,
2. Be Killed,
3. Destitute (Already happened),
4. Incarcerated set up or jailed or institutionalized, (Already happened),
5. Make any suicide look like an accident, and blame 'mental illness.'

have evidence in the following documents and recordings, that prove this elaborate victimisation and cover-up:

1. Telephone and,
2. interview recordings,
3. Documents from agencies and,
4. Evidence from all institutions and people above that:
5. Expose each of these institutions individuals and organizations, as corrupt and complicit in the conspiracy to maim me and destroy me for the above-mentioned reasons.

IBAC, and federal police:: I need the entire thing investigated.

have been destroyed in all ways, in prosperity, human rights, compensation, corrupt magistrates, right to equitable and unbiased legal assistance, via vehicles of:

1. Intelligence operations,
2. Oppression,
3. Blacklisting,
4. Stigma,
5. Prejudice,,
6. Discrimination,
7. Conspiracy to pervert the course of justice.

And I personally have been:

- neglected healthcare,
- treated with prejudice,
- gaslighted,
- Sexually abused,
- not listened to nor acknowledged,
- abandoned,
- Ignored,
- rejected, and I,
- have not had the agency for litigation,
- Right to a fair trial,
- Not been appointed. a community lawyer,
- homeless and squatting and,
- Bereft of power or an organization to report to,
- Been effectively gagged and silenced by the powers that be.

BAC, and federal police:: I need the entire thing investigated.

Otherwise - they will kill me - or render me bereft of support fair trial and prosperity, and you will and already have been complicit because I have already dies not once but twice under the care of a GP and a Hospital under a duty of care whilst incarcerated,

remind you all:

1. I have already overdosed and should be dead due to medical malpractice and professional negligence not once but twice,
2. I have fought all of this by myself with zero help whilst navigating stress and being unwell,
3. Been denied medical care,
4. Denied a DSP,
5. Denied income protection due to assumed 'illness',
6. Denied a lawyer,
7. Being denied justice from the before mentioned,
8. Refused litigation services,
9. Been victimised,
0. Being prejudiced against,
1. Either I am 'too mad' or 'not mad enough' depending on who is paying,
2. Been 'set up' and been maimed financially and professionally,
3. The center of a conspiracy protecting those with money power and privilege,
4. the unwilling participant in I believe a plot to protect my former partner as he is protected being a former ASIO employee,
5. I am the unwitting center of an elaborate conspiracy I want to be exposed for my justice issues to be heard received valued and given a fair trial.

I will post my evidence in the coming days/weeks in this document below:

I will post my evidence in the coming days/weeks in this document below.

I have suffered:

- Suicide death twice,
- Injury,
- Humiliation,
- Financial ruin,
- Lost my job,
- Lost my reputation,
- Public humiliation.

I demand:

1. My Maslow's hierarchy of needs met,
2. Freedom from litigation, harassment, persecution, and discrimination,
3. The freedom to pursue litigation against anyone I choose,
4. An unbiased lawyer and mental health advocate,
5. Freedom from violence and or incarceration in jail or psychiatric confinement -
6. Freedom from litigations in any form against me,
7. Protection for my family and friends and legal team - yet to come.

I WISH TO STATE - I AM NOT SUICIDAL

I REQUIRE WHISTLEBLOWER PROTECTION IMMEDIATELY
