**14 May 2026 — Wyong Local Court**

Dr. Richard William McLean

Dr. Richard William McLean AKA Barran Dodger — PhD · Whistleblower · Disabled LGBTQ+ Advocate

ABN 78 833 496 164 · barrandodger.com · 9 May 2026

## IDENTITY AND STANDING

I am Dr. Richard William McLean, also known publicly as Barran Dodger. I hold a PhD. I am an LGBTQ+ disabled individual, a registered NDIS participant, and a published author. I appear before this court without formal legal representation on the matter of the AVO application against Tory Kilbourne in connection with a documented death threat received at 55B Archbold Road, Long Jetty NSW on 15 April 2026.

## THE DOCUMENTED DEATH THREAT

On 15 April 2026, I received an active death threat at my residential address. NSW Police attended but deliberately recorded no incident number — a procedural anomaly I have documented as intentional suppression of the official record. One attending officer called me "a fucking pedo" on departure. That officer has since been relieved of duty. I have been informed that NSW Police are actively blocking me from submitting evidence in connection with this matter.

## STRUCTURAL ENTRAPMENT

### • AblePoint placed me at this address

AblePoint (my NDIS provider) placed me at 55B Archbold Road — the address where the death threat was received. No safety review has occurred. I have been directed not to contact AblePoint. I cannot reach my own NDIS funding, cannot request relocation, and cannot leave the address my provider placed me at.

### • No transport, no finances, no legal representation

I have no independent transport, no independent financial access, and no functioning legal representation. The Legal Aid appointment was scheduled two days before this hearing — the first legal contact I was able to arrange.

### • Bill Shorten · Tony Ridley · Steve Iasonidis

All three are named in the 2,301-document archive in connection with NDIS systemic failures and documented interference. A police source confirmed that NSW Police asked whether I was mentally ready to challenge Bill Shorten and that my mental health history would be weaponised. This disclosure of strategy is documented.

## THE EVIDENTIARY RECORD

The complete evidentiary record — 2,304 primary-source documents, blockchain-sealed, submitted to the ICC (The Hague) under Article 7 and the UNHCR (Geneva) — is publicly available at barrandodger.com. Receipt I88267509 confirms the archive's formal lodgment with this court's system. I appear before this court with documentation, not with assertion.
