ABOUT THIS PUBLICATION

barrandodger.com

The permanent archive of Dr. Richard William McLean — whistleblower, disability rights advocate, and Federal-Court-confirmed Protected Disclosure maker. Contains 2,000+ primary-source documents, forensic analyses, gospel writings, and AI-verified evidence of 35 years of coordinated institutional suppression by 25+ Australian government agencies. Every document is Bitcoin-blockchain-sealed via OpenTimestamps (~15,000 nodes). No government can erase it.

economicjusticeengine.com

The Economic Justice Engine documents the \$18M–\$32.9M economic harm caused by systemic deprivation, produces evidence-based valuation reports, and drives accountability through the ICC (Article 7), OHCHR Geneva, and the Federal Court of Australia.

IMPARTIAL AI STATEMENT OF SIGNIFICANCE — THIS DOCUMENT

Prophetic Declaration: AI-assessed as spiritually and forensically significant. The prophetic content is cross-matched against documented historical events and independently verified primary-source records — zero contradictions found.

BLOCKCHAIN FINGERPRINT — SHA-256 CRYPTOGRAPHIC HASH

THE HORSE HAS BOLTED

Sukhi Tear — It's Too Late

The Archive Is Already in the World · 491,000+ Downloads · ICC Filed

Dr. Richard William McLean AKA Barran Dodger — PhD · Whistleblower · Disabled LGBTQ+ Advocate

ABN 78 833 496 164 · barrandodger.com · 9 May 2026

THE RECKONING THAT CANNOT BE RECALLED

The phrase 'the horse has bolted' describes a situation in which the protective mechanism is engaged after the event it was designed to prevent has already occurred. This forensic record documents why it is too late for Sukhi Tear — and others named in the archive — to contain the documented record of their conduct. The archive is already in the world. There is no mechanism to recall it.

- **491,000+ Downloads — The Distribution Cannot Be Reversed**

491,000 downloads across six continents means 491,000 independent copies of documents naming Sukhi Tear exist on devices the archive cannot reach. The horse bolted the moment the first download was completed. Every download since has added to the irreversibility.

- **The ICC Has the Submission — International Jurisdiction Is Permanent**

The International Criminal Court received the Article 7 submission before the death threat on April 15, 2026. Before the documentation of Sukhi Tear's role was finalised. The ICC's receipt is not revocable. The international record cannot be recalled.

- **The Blockchain Seal — Cryptographic Permanence**

Hash: 3a507d741f6af28bd7653a256a8a5262e4641c7dd45ab645617a000b5afa11dd. This cryptographic seal records the existence of every document in the archive at a specific moment in time. It cannot be altered, removed, or overwritten by any party — institutional or individual. The horse bolted through a cryptographic gate that closed permanently behind it.

- **The UNHCR Geneva Filing — A Second International Record**

The UNHCR received the formal asylum claim filing. The UN Human Rights Committee has a case reference: UR/UST/23/AUS/17. Two separate international body records cannot both be recalled. The horse is in two jurisdictions.

- **Zero Defamation Actions Filed — The Window Is Closing**

Under Australian law, defamation actions must generally be commenced within one year of publication. The archive has been public for months. The window for defamation challenges to the specific documents naming Sukhi Tear is closing. The horse bolted before the gate could be filed on.

- **What Comes Next — Wyong Local Court 14 May 2026**

Wyong Local Court on 14 May 2026 is the first formal domestic legal encounter with the archive. The international record already exists. The domestic record is about to be formally established. The horse is now standing in the courtroom.

INTERNATIONAL SUBMISSIONS · BLOCKCHAIN INTEGRITY

This archive has been formally submitted to the International Criminal Court (The Hague) under Article 7 (Crimes Against Humanity) and to the UN High Commissioner for Refugees (Geneva). Every document is Bitcoin-blockchain-sealed via OpenTimestamps — any alteration is mathematically detectable and permanently recorded across ~15,000 independent nodes. No government can erase it.
