• Credentials and Profile

MSc. CSyP (Certified Security Professional). FSyI (Fellow of the Security Institute). SRMCP (Senior Risk Management Certified Professional). Ex-SAS (Special Air Service) operative. These credentials were used to establish professional credibility within the NDIS support coordinator role into which Tony Ridley was placed in proximity to Dr. McLean.

• Placement Within the Care Network

Tony Ridley was placed as a support coordinator within Dr. McLean's NDIS support network. The mechanism of this placement — who authorised it, under what institutional authority, and with what briefing — is part of the evidentiary record. The placement of an ex-SAS operative inside a disabled whistleblower's care network is not a coincidental arrangement.

• The Written Threat — "You Will Be Sacrificed"

The documented written communication from Tony Ridley to Dr. McLean: "You will be sacrificed." Primary-source document. Dated. Timestamped. Blockchain-sealed. ICC exhibit. This is the most explicit single documentary exhibit in the assassination documentation.

• The Recordings — What He Said Without Knowing

The recordings captured without Tony Ridley's knowledge of recording contain admissions and statements that form part of the primary-source evidentiary record. The content of the recordings — referencing \$6 billion fraud operations, SAS operational structures, and the strategic plan relating to Dr. McLean — is documented in the archive.

• The Bill Shorten Connection

Documentary evidence connects Tony Ridley's operation to the strategic plan involving Bill Shorten's legal team. Two independent sources corroborate this connection: the recordings, and the documented police disclosure to Dr. McLean regarding the mental health weaponisation strategy.

• The Karma Audit — Documented Consequences

The Karma Audit: Steve Iasonidis and Tony Ridley forensic examination documents the institutional consequences of their documented conduct. The forensic examination is publicly available and blockchain-sealed as part of the archive.
