WHO IS TONY RIDLEY

Tony Ridley holds the credentials MSc, CSyP, FSyI, SRMCP. He is a credentialled security professional with documented SAS (Special Air Service) connections. He was placed within Dr. McLean's direct support environment as a "support coordinator." He delivered the documented written communication: "You will be sacrificed." That communication is now an exhibit before the International Criminal Court.

• The Written Communication — "You Will Be Sacrificed"

Tony Ridley sent a documented written communication to Dr. McLean containing the words "You will be sacrificed." This is not an alleged threat. It is a documented written record. It has been blockchain-sealed and submitted to the ICC as a primary-source exhibit. The communication is dated, timestamped, and immutable.

• The \$6 Billion Fraud Confession — Honeypot Operation

Tony Ridley did not know he was being recorded. The recordings capture admissions relating to a \$6 billion fraud operation and the SAS honeypot placement within Dr. McLean's support network. These recordings are documented in the archive and form part of the ICC submission.

• Bill Shorten Connection — Named With Evidentiary Basis

The recordings and documentation name Bill Shorten in connection with the assassination strategy directed at Dr. McLean. A documented police source independently confirmed that NSW Police asked whether Dr. McLean was mentally ready to challenge Bill Shorten, and that his mental health history would be weaponised. Two independent sources corroborate the connection.

• The SAS Honeypot Mechanism — Embedding Within the Care Network

The mechanism of embedding a credentialled SAS operative within an NDIS support coordinator role — giving that operative access to a vulnerable whistleblower's daily life, communication patterns, and support infrastructure — is documented. Tony Ridley was placed. He extracted information. He issued a threat. He is now documented.

• Co-tenancy at 10 Raleigh St Footscray — Steve Iasonidis

The documented connection between Tony Ridley and Steve Iasonidis — who co-habited with Dr. McLean at 10 Raleigh St Footscray while simultaneously operating as an ASIO-connected surveillance operative — is part of the evidentiary record. The network is documented at co-tenancy level.

• What the ICC Has

The written "you will be sacrificed" communication. The recordings. The connection to Bill Shorten's legal strategy. The co-tenancy with an ASIO-connected operative. The \$6 billion fraud reference. All blockchain-sealed. All submitted. The ICC has Tony Ridley's file.
