EXECUTIVE SUMMARY

This document presents the complete evidentiary record of Dr. Richard William McLean's (Barran Dodger) case before Wyong Local Court on 14 May 2026. The archive of 2,304 primary-source documents, blockchain-sealed and internationally distributed, constitutes the evidentiary foundation. The verdict is already written in the documents. This record presents why.

Chapter 01: The Archive As Evidence

511,560 verified document downloads across 6 continents — built without marketing, without media, without institutional platform. Conservative forensic valuation: \$58,600,000. Mid-range: \$112,800,000. Maximum: \$257,300,000 — each figure grounded in documented comparable cases. UN Human Rights Committee case formally registered: UR/UST/23/AUS/17. ICC Article 7 (Crimes Against Humanity — Persecution) submission filed and accepted.

Chapter 02: The Federal Court Acknowledgment

Federal Court General Counsel Scott Tredwell confirmed in writing on 27 March 2023: "I am satisfied that you are, or were, an employee with the Department of Social Services." And that the disclosure "tends to show conduct that unreasonably results in a danger to the health or safety" of persons. This written acknowledgment on Federal Court letterhead is blockchain-authenticated within the 2,304-document archive. No formal action was taken following this confirmation.

Chapter 03: The Death Threat — April 15, 2026

A documented death threat was received at 55B Archbold Road, Long Jetty NSW. NSW Police attended but deliberately recorded no event number — a procedural anomaly documented as intentional suppression. The attending officer called Dr. McLean "a fucking pedo" on departure. The officer has since been relieved of duty. AbleCare (NDIS provider) received formal notification of the death threat on a recorded call and took no emergency action.

Chapter 04: The Financial Case — \$32.9M Documented

NSW Trustee and Public Guardian financial control — documented, without informed consent. Sukhi Tear: \$50,000 NDIS fund embezzlement — documented theft of disability support funds. NDIS weaponised as entrapment instrument: economic difference \$900,000–\$1,600,000 over 10 years. 14 involuntary psychiatric detentions used to enforce isolation — documented in the archive. AVO weaponisation by NDIS Minister Bill Shorten — documented legal instrument used for entrapment.

Chapter 05: AblePoint — Structural Entrapment

AblePoint deliberately placed Dr. McLean at 55B Archbold Road, Long Jetty NSW — the address where the documented death threat was received. No safety review was conducted. No relocation occurred. AblePoint failed to report the incident as a mandatory NDIS reportable event under the NDIS Act 2013 s.73Z. Dr. McLean was directed not to contact AblePoint — the entity that holds his NDIS funding, controls his support arrangements, and placed him at the address where the death threat occurred.

Chapter 06: The International Record Stands Unchallenged

410,503 downloads across 174 documents, 6 continents, with 845 Bitcoin blockchain records. The archive is distributed across thousands of independent devices, international jurisdictions, institutional servers, and the Bitcoin blockchain itself. There is no mechanism — legal, technical, or political — by which this record can now be suppressed. The sustained failure of named parties — with full access to legal counsel and governmental authority — to challenge, correct, or rebut the documented record constitutes tacit acknowledgment. The record stands unchallenged. The record is the verdict.
